As disclosed at page 15, lines 19 to 24 of the specification, pH regulation with these bases is easy and they have a high boiling point and, therefore, cause no decrease in pH upon drying.

Tseng et al do not contain any disclosure or suggestion of the use of these organic bases.

In view of the above, applicants submit that Tseng et al do not disclose or render obvious the subject matter of claims 6 to 9, 11 and 12 and new claims 13 and 14, and, accordingly, request withdrawal of this rejection.

In view of the above, reconsideration and allowance of this application are now believed to be in order, and such actions are hereby solicited. If any points remain in issue which the Examiner feels may be best resolved through a personal or telephone interview, the Examiner is kindly requested to contact the undersigned at the telephone number listed below.

The USPTO is directed and authorized to charge all required fees, except for the Issue Fee and the Publication Fee, to Deposit Account No. 19-4880. Please also credit any overpayments to said Deposit Account.

Respectfully submitted,
